

Beauty Talks

By Louise Huff

Los Angeles, Cal.—That dainty and charming actress, Louise Huff, noted for her wonderful complexion, is also a writer of many articles on the subject of beauty. She gladly tells the readers of the Bulletin how they may quickly acquire a smooth, soft, rosy-white complexion. Here is her method: "To get the best results, the skin must be thoroughly cleansed daily with a good cleansing cream. Then apply Dermol, which you must use at the toilet counter of any up-to-date drug or department store. This combination instantly brightens the complexion, and I use nothing else."

Over one million are now using Dermol in preference to face powders and other beautifiers, and they are all just as enthusiastic over it as Louise Huff. Get Dermol and use it today. You will be delighted. The following druggists sell them under a money refund guarantee: The Leo & Osgood Co.

Out Goes All Rheumatic Poison

Rheuma Acts on Kidneys, Liver and Bladder the Very First Day.

Get a bottle of Rheuma today and wear a satisfied smile on your face to-morrow.

It's a remedy that is astonishing the whole country, and it's just as good for gout, sciatica, lumbago and kidney misery as for rheumatism.

It drives the poisonous waste from the joints and muscles, that's the secret of Rheuma's success.

But we don't ask you to take our word for it; go to Lee & Osgood Co. or any good druggist and get a bottle, and if it doesn't do as we promise, get your money back. It will be waiting for you.

MAKES A SAVING IN The City of Norwich

It is wasteful to start up your regular heating plant merely to take off the chill during fall and spring months. You get more heat than you need most of the time and frequent building of fires makes fuel economy practically impossible. This winter try operating your furnace with closed drafts and get an extra heat required from RADIANTFIRE. It will make a remarkable saving in your fuel bill.

We can help you solve your heating problem.

CLAIMS THEY INCURRED HIS

FATHER TO GIVE UP \$1,000.

In the superior court at New London Thursday, Judge Newell Jennings heard the suit which Herbert F. Brown of this city, administrator of the estate of his father, Nelson F. Brown, brought against Henry C. and Flora Doherty of Granville village to recover \$1,000 which the administrator claims Nelson Brown was induced to transfer to them in his lifetime through undue influence.

Evidence in the case was not all in by the time court adjourned and the trial will be resumed on Tuesday, Oct. 10, as the jury is to come in next Wednesday in New London.

The plaintiff alleges that on March 13, 1916, his father delivered to Mr. and Mrs. Doherty \$500 in cash and another \$500 to be held by them for the purpose of defraying his funeral expenses. He claims that prior to that time the Dohertys began to ingratiate themselves into the confidence of his father to such an extent that they gained complete ascendancy over him in the matter of his feeble mental condition while he was living with them and that they induced him to give them the money.

On the witness stand the plaintiff told the father before he died was in a feeble mental condition and that he subsequently going to live with the Dohertys with whom he remained for a year, during which time he gave them the \$1,000 which is the basis of the suit. Brown testified that his father having transferred about \$7,000, which he had in banks in Norwich and New London, him some time after his illness and then of having transferred it back to his father at his father's request subsequent to which his father gave the money in question to Mr. and Mrs. Doherty.

The defendants deny that they used any undue influence on the plaintiff's father and claim that he gave them the money outright as a gift for the care and attention they had given him while he lived with them.

FOUND CATS ABANDONED

ALONG COLCHESTER ROAD

Twice recently officers of the Connecticut Humane society, while in the vicinity of Colchester, found cats or kittens abandoned on a dirt and suffering condition. Inquiry seemed to satisfy the officers that small animals had been dropped on the road without the person committing the act appreciating that the cruel abandonment of an animal is contrary to the laws of Connecticut and is punishable by either a fine or imprisonment. One of the kittens rescued was found along the edge of a shallow stream where it had been thrown, and less than without the person doing it making any decent effort to see that the animal was drowned. The Connecticut Humane society will pay a reward for the arrest and conviction of any person cruelly abandoning an animal and will be grateful for information which will be treated confidentially from any person who has knowledge of the ill-treatment of animals.

MUCH NORWICH PROPERTY NOT IN TAX LIST SAYS COMMISSIONER BLODGETT

You haven't had a reassessment for so long that you will find, as has been true of other towns, property that isn't in the grand list at all. There is more property in Norwich than in the tax list than any body can possibly suspect, said State Tax Commissioner William H. Blodgett, Hartford, who was the principal speaker at the membership meeting of the Norwich Chamber of Commerce held Thursday evening at Odd Fellows hall.

The census taker, who was the principal speaker at the membership meeting of the Norwich Chamber of Commerce held Thursday evening at Odd Fellows hall, the census taker, who was the principal speaker at the membership meeting of the Norwich Chamber of Commerce held Thursday evening at Odd Fellows hall, the census taker, who was the principal speaker at the membership meeting of the Norwich Chamber of Commerce held Thursday evening at Odd Fellows hall.

Commissioner Blodgett said that he found that one piece of Norwich property which was sold for \$19,750 was in the list for only \$7,000; another which sold for \$18,850 was in the list for \$4,000. In all the commissioner quoted the selling value of 30 pieces of property as being less than the assessed value. These thirty pieces of property sold for \$258,900 and were in the list at \$113,375, or only 43.79 per cent of their actual value.

The meeting which was the first of the fall membership gatherings of the chamber, had an attendance of about 75 representative business men and manufacturers of Norwich. At 6:15 o'clock a baked bean supper was served and at the close of the supper, Charles F. Wells, president of the chamber of commerce, called the gathering to order. State Tax Commissioner Blodgett was introduced by President Wells as the first speaker.

Commissioner Blodgett said that when we talk about taxes we talk of your money, said Commissioner Blodgett. You have your own problems and you know how to take care of them. I don't come here to dictate. I want to discuss the question as tax recommissioners. I say that many towns have approached a nearer solution of the tax question than Norwich. There is room for improvement in Norwich. It is the old case where a town falls into the way of doing a thing certain way. Many towns, instead of assessing past the hat. Every body pays according to his conscience.

Compares Sales and Assessors' Valuations

I made a little investigation of your tax list. I am making similar investigations in other towns in the state. Commissioner Blodgett said that investigation of 31 transfers of property in Norwich showed that the assessors' valuation was only 43.79 per cent of the selling value. He went on to quote valuation figures on these 31 pieces of property as follows:

Selling Valuation	Assessors' Valuation
\$7,500	\$7,000
9,750	5,500
18,850	4,000
6,750	3,000
14,750	3,000
7,250	2,800
4,250	2,500
11,750	2,500
4,750	2,000
6,750	1,500
4,750	1,200
4,250	1,200
5,750	2,000
3,250	1,300
7,750	2,000
1,750	550
1,250	550
7,250	2,750
4,750	2,200
4,250	900
6,750	1,900
6,250	1,000
14,250	5,500
17,750	11,000
3,750	1,700
7,250	2,000
12,250	5,000
32,250	15,000
4,750	5,250

\$258,900 **\$113,375**

No such conditions should be tolerated by Norwich people. The assessors are up against a difficult problem. You are asking your assessors, without maps, or equipment, to go out and do what they can't do. No three persons, or any six persons in this hall are going to accomplish a reassessment for Norwich without the facilities and equipment.

Passing the Hat Among Taxpayers

You are simply passing the hat among the taxpayers and asking them how much they will contribute. You are doing it up against the state. The injustice of that tax arrangements have been brought forcibly to the attention of the people of Norwich. The average man would welcome a fair tax valuation of his property. If everyone else was assessed in equal proportion.

I understand that there is appropriation before your town meeting for a tax map. If you ever intend to have a reassessment in Norwich, you haven't had a reassessment for so long that you will find, as has been true of other towns, property here that isn't in the grand list at all. I support those people, whoever they are, who oppose a tax map for Norwich. There is more property in Norwich than in the tax list than anybody here can possibly suspect. I wish there was an awakening in Norwich he said in conclusion.

I have heard one argument against a tax map for Norwich, said President Wells. This was from a man who wanted to know why Norwich wanted a tax map for. We have gone 250 years without one, he said to me, and we can go 250 years more without one. President Wells then introduced Mr. M. Simons of Hartford, formerly chairman of the board of assessors in Hartford.

Taxes Pay Community Expenses

The question of taxation is a question that is not thoroughly understood by the average individual, said Mr. Simons. As a matter of fact, taxation is a simple question. What is the purpose of taxation? It is to raise funds with which to pay the cost of maintenance of a community. Taxation is for the purpose of distributing the taxes in proportion to the amount of property the taxpayer owns. The theory is one of the noblest, one of the most simple we can possibly find.

The only question is to apply that theory so that each individual will pay 100 per cent of his share of the cost of maintenance of the community. No town or city collects more money than it actually needs. The basic principle is the equal distribution of taxes. Mr. Simons went on to say that he had made a visit to the local assessors office.

YACHT TARE ABANDONED—ENGINE, BOILERS UNTOUCHED

(Special to The Bulletin.)

Westerly, Sept. 28.—The yacht Tare is a sorry sight, abandoned by crew, wreckers and owners to the mercy of the waves. The public is now stripping the boards from the sides and carrying the planking away for firewood. Holes were made in the sides of the boat and coal has been carried off, having been passed out in bags.

The wreckers sold the windows, cushions, curtains, daisies and all movable equipment of any value. The rudder and propeller were released by blowing a hole in the stern. The boat lies in the sand with her back broken, and at low tide one can walk around the stern. There is still a first class engine and boilers in excellent condition which weigh several tons, and are intact even to the stack, and anyone who desires such an equipment cargo and get it as it belongs to anyone now.
